Fraternal Meetings LYMAN DEFENDS HONOLII CONTRACT

Says Hilo Board of Trade Is Jealous Because Hawaiian Supervisors Prove Able.

the present board is composed almost hio. entirely of Hawaiians and has been able to accomplish what could not be done during the time of the monarchy, by road boards subsequently or by the two previous boards of supervisors. Mr. Lyman says:

"Ever since the days of the monarehy it has not been found possible to construct the Honolii road. Estimates made when the Territory had control of the road gave a cost of \$60,000 and there was never available eash. Two county boards have come and gone, former road boards have passed and nothing was done. The present board of supervisors started out to try and do this work and found the cash, then in stepped the board of trade to work a little politics and trot out its old hobbyhorse of the county engineer. Its real object was to discredit the board of supervisors, which is controlla large job without first consulting the board of trade. "When bids were asked for the work,

Mr. Metzger had his chance with others, but he claimed that it could not be done under the specifications for the amount bid, and he made a protest instead of bidding. Since then, however, the work has gone ahead, and now shows signs of being nearly finished. So the next movement of the board of trade was to say that we are spending too much money on it and to claim that we cannot now complete it. This is simply an effort to try to discredit the present board of supervisors and do a little political stunt for their own benefit. We should be glad if the whole board of trade would go into the business of road building and do better. Auto roads cannot be made by kicking, but they can be helped by cooperation and assistance. Had such a contract as that for the Honolii road been awarded to a member of the board of trade, there never would have been a kick, a protest, or even a murmur carried by the wind. "I admit that this is a large con-

tract, because it has three large conerete culverts and several cuts in the composed, with one exception, of Ha-

LIQUOR BUSINESS

Sells Out to Dicky Davis for REAL \$24,000 Subject to License Transfer.

There is a deal on which, if the board of liquor license commissioners approve the proposition, will result in Jack Scully, the popular proprietor for several years of the Fashion Saloon, selling out to Dicky Davis, and the latter will become proprietor of the business. The sale means the payment of \$24,000, of which twenty thousand dol lars is paid in eash and the balance s taken out in certain stock. Davis has been identified with the Mani wine interests and he has also been connected with the Honolulu Brewery Com

Since Colonel McCarthy, of the Cri terion Saloon, went out of the liquor usiness by selling his interests to Pete acock, to be unencumbered as far a e liquor interests were concerned, in e race for the senatorship, there has n much talk relative to others tak g an active interest in the immediate polities of the Territory. Now that Scally has given up the liquor business, it is only natural that there should be rumors to the effect that he also aspires a political position.

Scully, however, will have nothing to ev in this regard. It is a well known act that Scully has business interests here other than those having to do with

PUNAHOU REOPENS LATER THIS YEAR AT AUCTION

Registration Heavy to Date-An Addition Is Made to the Faculty.

Oahu College opens Monday, September 12. This is one week later than usual but the change was made largely to make the Punahou school year fit better into the schedule of the examinaed by Hawaiians, for undertaking such tions for admission to the mainland colleges.

An addition to the faculty has been made in the director of the boarding department. This teacher will have direct charge of the students in the dormitories and will be coordinate in power to the principals. With the careful personal oversight of this teacher, the boarding department at the college will have an even more efficient administration than before. Ernest T. Chase, a graduate of Boston University, and a teacher with long experience in Worcester Polytechnic Institute, Milton Academy and Nichols Academy, of which he was head master, comes this year to take the position. As Mr. Chase is athletic and has had experience in Y. M. C. A. work, he will be valuable in the boys' club work of the college and in other outside activities on the campus and in the community.

President Griffiths has been busy since his return in getting fully in touch with the many details at the colege and in making the final arrangements for the opening of the school year. He is in his office every morning from nine to eleven o'clock, where parents or students who wish to confer with him may find him. He will meet banks from fifty to sixty feet deep. by appointment at other times those This being the case, all the more credit who cannot come to Punahou during to the present board of supervisors, the regular office hours. Judging by the advance registration, which is heavy this year, this promises to be a big year in all departments at the college.
